We wish to call to your attention the growth and general improvement in our institution during the year of 1934, as is quite vividly reflected in the comparative statements above. We do not publish these figures boastfully, however we are proud of the showing, and justly so we think, and in it we are not unmindful of the fact that you, our valued customers are responsible for our fine condition in giving us your loyal support.

We want you to know that we appreciate your patronage. We know that your prosperity will be reflected in ours. 1934 was a good year and we pledge you our support to make 1935 a better one. We hope that you will identify yourself with us, 'THE HOME OF THRIFT' and join with us.

With extra caution for the safety of our depositors we will be forced, as well as all other banks, under the recent Federal Reserve Bank's ruling to reduce our interest rate from 3 to 2 1/2 per cent on February 1, 1935. This insures 'return of investment' rather than return ON investment.

The U. S. Government Check Tax of .02 has also been removed. This, we hope, will induce you to use the facilities of our bank in a larger way.

Our Most Valuable Asset Is The Good Will and Confidence Of Our Customers, For Which We Thank You.

AGENTS SERVICE: Its value is often overlooked by the policyholder because it has been reduced in the contributory fashion.

We see the work of many agents' and many of them give their assured service that is literally beyond price.

There are a few who do not give value received.

The competent agent who has rendered a full measure of service—and has impressed that upon his assured—has little to fear from competitors who sell their wares on price, who dredge a prospective "saver" of a few premium dollars before their prospect's eyes and carefully say nothing of the liabilities he will assume to get that "saving".

The meat is browned and divided into small pieces. And the potatoes are boiled and served with butter and salt. The chicken is fried and served with a little of the dressing. The salad is made with a little of the dressing. The potatoes are caramelized with a little of the dressing. The coffee is served with a little of the dressing.

Wherein the Editor Gets in a Personal Touch

Dime and dimes: Guess long about now Hoptmann is telling the fish stories. It looked to me like the thermometer said 5 this day, but I was shivering so — Evidently that "cold me" Chink! Outside and above the drug store — on man drove a horse and buggy in the Ford show last week. John Carroll Stanley had a picnic taken of the Santa Clara drive, he made in the cafe (folks call it "the cafe") and John a very good picnic. — Oh, Rube, did you know that the guest house some mysterious powder in a glass and drank it, but really it was a good thing. — I was between a lady and an affix man, and I learned something — the local Methodist building here now has over 1,000 in coin of the realm. — H. Coleman killed a 678 pound clover seed, but produced only 7,000 pounds to sell — the depression here caused an amazing run down look among many farms, there being a need for paint, new fences, and new equipment there are more than 100 sheep in Appomattox county, and the county produced 121,000 pounds of lard last year.
